

Endobronchial fine needle biopsy
without compromise

SonoTip TopGain[®]

The EBUS fine needle biopsy system

**Precise diagnostics for improved
patient care**

Endoscopic instruments
for gastroenterology
by specialists

For simple and safe extraction of high-quality cytological samples in the framework of an endoscopic ultrasound process: SonoTip TopGain[®] system offers an innovative 3-point needle tip design which can improve differential diagnosis to support histological findings.

NEW: SonoTip TopGain®

Biopsy without compromise

The new **SonoTip TopGain®** EBUS fine needle biopsy system was specifically developed for the high-quality support of cytopathological diagnosis and to increase the quality of patient care.

The innovative 3-point needle tip design with a crown cut was designed in collaboration with renowned specialists. The quality of the needle plays an important role in determining the quality of the tissue samples for the primary diagnosis and staging of malign and potentially malign diseases.

Maximization of tissue extraction

Reduction of sample fragmentation

Better visibility supports puncture precision

SonoTip TopGain® – with round stylet, single use

Compatible with Olympus and Fujifilm EBUS endoscopes

Order No.	Description	Needle material	Needle diameter	Tube external diameter
GUB-45-18-022	EBUS-guided TBNB system with twist lock technology incl. Fujifilm adapter	Stainless steel	22 gauge	1,8 mm
GUB-46-18-022	EBUS-guided TBNB system with twist lock technology incl. Fujifilm adapter	Nitinol	22 gauge	1,8 mm

Compatible with Pentax EBUS endoscopes

Order No.	Description	Needle material	Needle diameter	Tube external diameter
GUB-42-18-022	EBUS-guided TBNB system with twist lock technology	Nitinol	22 gauge	1,8 mm
